

Chase Ashley

Chase is a Licensed Architect in Oregon, with extensive experience in higher education and commercial office design. As a driven creative leader he brings the ability to conceptualize a project's meaning and design goals into a blend of functionality and creativity.

In his 7 years of experience, Chase has worked on several projects through all phases of the design process. As a skilled designer, Chase thrives on conceptualizing and executing projects that push the boundaries of what's possible. He enjoys collaborating with teams and bringing out the best in his colleagues, which has earned him a reputation for being great to work with and for keeping teams together during a project.

Chase has been an integral designer on projects across the region ranging from higher education, workplace, commercial office, and community installations, working closely with clients to craft their vision. Chase brings a unique blend of design expertise, collaborative spirit, and cultural leadership to every project he works on, regardless of its size or complexity. He is passionate about design at all scales and embraces opportunities to design through making.

Beyond his design skills, Chase is also known for driving culture and promoting a positive work environment. He believes that design isn't just about creating beautiful spaces but also about creating spaces that enhance the human experience and foster a sense of community.
